TORTURING ECZEMA

Editor Iowa Plain Dealer Cured of Insufferable Itching and Pain by the Cuticura Remedies.

No Less Than Five Physicians Consulted. Their Combined Wisdom Followed Without Benefit.

I am sixty-six years old. In August, 1889, was troubled with the peculiar skin disease to which people of my age are subject, known among medical men as eczema. Its first appearance was near the ankle. It rapidly extended over the lower extremities until my legs were nearly raw sore; from legs the trouble extended across the hips, shoulders and the entire length of the arms, the legs and arms greatly swollen with an itching, burning pain, without cessation. Although the best medical advice attainable was employed, no less than five physicians of the place being consulted and the prescriptions being the result of their combined wisdom, the disease, though apparently checked, would recur in a few days as bad as ever; during its progress my weight fell away about twenty-five pounds. As an expert, I began the use of CUTICURA, following the simple and plain instructions given with the Remedies, and in four weeks found myself well, with skin soft and natural in color, the itching and pain entirely relieved.

FACTS BY FIGURES.

OF 10,000 persons one arrives at the age of 100 years, of 500 one attains the age of 90, and one in 100 lives to the age of 80.

The population of Paris, according to the census of last April is 2,422,969. In 1886 it was 2,369,645. It has, according to this, increased by 7 per cent. in the last five years.

It is said that in Munich, which consumes more beer than any other German city, the family allowance of the amber fluid amounts to 545 quarts a year for every man, woman and child.

The present population of Helsingfors, the capital of Finland, is 59,647, of whom 29,757 are Finns and 29,890 are Swedes. Last year there were only 14,479 Finns and 23,949 Swedes. The diminishing of the proportion of Swedes in Helsingfors is due, as Novage Vremya asserts, to the progressive Russification of Finland.

BY WIRE.

SPECIAL DISPATCHES TO PROSPECTOR

NEW COLLECTOR.

WASHINGTON—The president today appointed Francis Hendricks to be collector of customs at New York.

PENSION MONEY.

WASHINGTON—The payments by the treasury department on account of pensions so far during the month of September aggregates \$6,657,000.

PREPARING.

St. LOUIS—A dispatch from Guthrie Oklahoma territory, says thousands of boomers are arriving there and going into camp in anticipation of the proclamation opening the reservation to the east of the settlement. The rush bids fair to rival if not exceed that of the opening of Oklahoma.

TAMMANY.

NEW YORK—The opening gun in the New York campaign was fired by J. Sloat Fassett before an audience of enthusiastic republicans. He stated the issue of the hour to be Tammany or no Tammany and the war cry of his campaign would be "Down with Tammany."

HURRAH FOR NEBRASKA.

GRAND ISLAND—The following plank in the democratic state platform was adopted without a dissenting voice: "We favor the free coinage of silver and that it be made a full and legal tender for all debts, public or private, and denounce as unjust and dishonest the provision of the law recently enacted allowing parties to stipulate against payment in silver and silver certificates."

THE REPUBLICANS.

WASHINGTON—Mr. M. H. De Young, editor of the San Francisco Chronicle and a member of the National Republican Executive Committee, arrived here last night from New York in company with General Clarkson. To a Post reporter Mr. De Young said: "The executive committee will shortly call a meeting of the national committee which will determine the time and place of holding our national convention. The convention will be held within six months of the meeting of the national committee so as to avoid the extreme summer heat that worried us so bad at Chicago the last time. The committee will doubtless convene here in November and so the convention will take place some time during month of May 1892."

A WATCH WAR.

CHICAGO—A morning paper says war has again broken out among the big watch manufacturers of America. This time the Waltham and Elgin companies have pooled their issues and by one blow seek to wipe out of existence their foe John C. Dueber, who has been fighting the trust for several years. Some months ago

Dueber put a watch movement on the market at \$9.50 which had formerly been sold at \$15. Last Monday morning a circular was placed in the hands of every jobber in the world who handles Elgin and Waltham movements. It carried with it a notice that hereafter all movements of this class would be sold at a reduction of 20 per cent in rebates on goods already in jobbers' hands and goods in stock. The reduction is said to amount to \$400,000 for the Elgin company and \$1,000,000 for the Waltham.

PLEDGING THEM.

DES MOINES, Iowa—The miners of Iowa are seeking to pledge candidates to the legislature in exchange for their votes, to support measures to accomplish the following ends—

First—To establish the eight hour day for all employees in and around miner mills and factories.

Second—To pay in legal currency once each week for all labor performed.

Third—To weigh all coal before being screened.

Fourth—To abolish the present truck store system.

Fifth—To make it a penitentiary offense for any one to ask the signature of his employees to a contract that would waive their right to any of the above laws.

THE HOLY COAT.

TREVES—Among the miracles said to be performed by the Holy Coat are the curing of the withered arm of an abbot, the restoring of the sight of blind people and the curing of cripples. Each case is declared to be supported by medical testimony, but the details will not be published until the exhibit of the relic is finished.

REMARKABLE RESCUE.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself well, and now does her own housework and is as well as she ever was—Free trial bottles of this Great Discovery at Yonge's Drug Store, large bottles 50c and \$1.

A well authenticated report comes to the Star that an English syndicate has purchased the Florence canal and has engaged to at once commence the construction of the big dam at the Buttes and that the capital of the new enterprise is \$2,000,000.

FOR OVER FIFTY YEARS.

An old well-tried remedy.—Mrs Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It is pleasant to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

In New York to-day silver was quoted at 97; lead, \$4.50; and copper, \$12.20
